PROFESSIONAL SUMMARY

Results-driven Data Analyst with extensive experience in advanced SQL, Python, and data visualization. Builds interactive dashboards and reliable data pipelines that turn complex datasets into clear, actionable insights. Experienced across the modern analytics stack, including Power BI, Snowflake, and dbt, and actively integrating AI tools such as Claude Code and ChatGPT to accelerate analysis, automate repetitive work, and solve data problems faster. Adept at mentoring teams in best practices and translating analytics into impactful business solutions.

CORE COMPETENCIES

- Data Analysis:** Predictive Modeling, Statistical Analysis, Exploratory Data Analysis (EDA), Data Wrangling
- Data Visualization:** Power BI (DAX, Paginated Reports), Tableau, Looker Studio (Dashboards, Reports, Data Modeling)
- Programming & Tools:** Python (Pandas, Matplotlib), SQL (MySQL, Microsoft SQL Server, BigQuery), Excel (Advanced Formulas, Power Query, Power Pivot), Visual Basic
- Data Engineering:** Snowflake, dbt, ETL Processes, Data Pipelines, Database Administration, Workflow Optimization
- AI & Automation:** Claude Code, MCP Servers, ChatGPT, Gemini, AI-assisted analysis and reporting
- Customer Support Analytics:** Zendesk Ticketing System and Workflow Enhancement

PROFESSIONAL EXPERIENCE

- Cloudstaff**
Data Analyst

Apr 2025 – Present

 - Developed interactive Power BI dashboards connected to SQL Server, enabling cross-functional teams to monitor KPIs and derive data-driven recommendations.
 - Constructed custom reports and data models using SQL and Snowflake, delivering robust analyses and visualization of large datasets.
 - Managed data transformation pipelines with dbt to keep the Snowflake warehouse clean, well-modeled, and performant.
 - Integrated Claude Code (via MCP server) and ChatGPT into daily workflows to speed up analysis, automate repetitive tasks, and prototype dashboards faster.
 - Collaborated with cross-functional teams to manage project workflows via Asana, ensuring timely execution of data initiatives.
- Paragon Outsourcing**
Data Analyst

Jul 2023 – Mar 2025

 - Led the development of interactive Power BI dashboards, enhancing cross-departmental accessibility to actionable insights and strategic performance metrics.
 - Executed ETL processes to integrate and consolidate data from multiple sources, ensuring data accuracy and comprehensive reporting.
 - Optimized Zendesk workflows, refining ticket management processes to improve customer support performance.
 - Streamlined large datasets through advanced data cleaning and processing techniques, supporting effective data interpretation and operational improvement.
 - Utilized API integrations for precise data requests, contributing to a robust data environment.
- Majorel**
Reports Analyst II

Jun 2016 – Jul 2023

 - Delivered robust data visualizations using Power BI with complex DAX measures to support decision-making.
 - Refined reporting pipelines utilizing Power Query and Power Pivot.
 - Regularly prepared and distributed hourly, daily, and month-end reports for key stakeholders.

- ▶ Ensured dataset accuracy by integrating and updating Zendesk data into operational dashboards.

Harte Hanks

Feb 2014 – May 2016

Business Reports Analyst

- ▶ Analyzed agent productivity metrics, presenting weekly insights and actionable recommendations.
- ▶ Produced ADHOC reports catering to manager-specific requests with a high degree of accuracy.
- ▶ Created visual templates and automated workflows to enhance data accessibility.

Computer Affiliated Services (Xerox)

Sep 2013 – Dec 2013

System Developer Specialist

- ▶ Developed automated reporting systems using VB Macros, enabling non-technical users to execute complex tasks effortlessly.
- ▶ Conducted data validation and ensured accuracy across reporting systems.
- ▶ Collaborated with cross-functional teams to implement process improvements in automated reports.

Transcom

Oct 2012 – Sep 2013

Reporting Analyst

- ▶ Designed templates using Excel VB Macro for sales and productivity reporting.
- ▶ Managed SQL-based operational databases to ensure seamless data flow and reporting.
- ▶ Delivered high-quality daily, weekly, and monthly reports to stakeholders.

Teletech (Pampanga)

Jun 2011 – Oct 2012

Real-Time Analyst

- ▶ Monitored real-time operational performance and created staffing schedules based on forecasted needs.
- ▶ Delivered hourly and end-of-day reports summarizing key performance metrics.

Sutherland Global Services

Feb 2009 – Apr 2011

Reports Analyst

- ▶ Designed and implemented report templates incorporating advanced analysis.
- ▶ Automated recurring reports using Excel VB Macro, saving significant processing time.

Sutherland Global Services

Jan 2008 – Feb 2009

Customer Service Representative

- ▶ Supported customer retention programs for Amazon.com and United Online.

EDUCATION

Holy Angel University, Angeles City

2002 – 2007

Bachelor of Science in Information Technology

CERTIFICATIONS & TRAINING

- **Master Claude Code, Plugins & Skills — Build AI Apps, Automate with Cowork & Deploy Autonomous Agents:** Udemy, 2026 **IN PROGRESS**
- Hands-On High Performance SQL: Udemy, 2025
- Microsoft Power BI Desktop: Advanced DAX for Data Analysis: Udemy, 2025
- Microsoft Power BI Desktop for Business Intelligence: Udemy, 2024
- 100 Days of Code: The Complete Python Pro Bootcamp: Udemy, 2024
- Complete SQL Mastery: Code with Mosh
- Certified Lean Six Sigma White Belt: 2023
